

**Trapper Creek Glen Homeowners Association**  
**Board meeting**  
**March 18, 2018**  
**Sheep Creek Lodge**

The three members of the board (John Quinley, Jean Hartman, Jason McNamara) attending the annual meeting met after adjournment as a board, starting at 3:10 p.m.

There was a brief discussion of the HOA property being part of the Trapper Creek Road Service Area. The inclusion occurred in about 1984 for the purpose of getting the parking lots plowed and maintained. The association was originally required to construct the lots to borough specification in order for them to be maintained by the borough.

The discussion was prompted by an email from Stafford Glashen, who was interested in ways the subdivision owners might get a lower mil rate from the RSA, or better services for our money (since we don't have fully developed roads to plow). He is exploring some ideas with his assembly member, including better snow plowing of the parking lots and other services.

The board also discussed the repaving of the Parks Highway this summer. John Quinley will call the DOT's public outreach coordinator, Anne Brooks, to inquire about the subdivision getting ground-up asphalt spread on the parking lots, use of any spare gravel, etc.

The board adjourned at 3:20 p.m.
